THE AGENDA

- DESIGN DISASTERS
- DISASTER SOLUTIONS
- SLOW SOLUTIONS
- HANDLING THAT GUY
Different Types of Disasters
Adobe has detected that the application Adobe Photoshop CS4 has unexpectedly quit.

A crash report has been generated. Adobe will use this crash report to help find a future solution to this problem.

- Always show this dialog.
- Don't show this dialog again and always send crashes to Adobe.
- Don't show this dialog again and never send crashes to Adobe.

Please note that the preference you choose will apply to all Adobe products and services.

Problem Description

In some cases, our engineers would like to receive additional information to help them resolve the problem. If you supply your complete email address in the field below, Adobe will be able to contact you if our engineers require more information or to notify you of a fix or workaround.

- Include email address in this report
